Grant, White Cloud and Washington Would Secure a Readjustment of Boundaries—Election March 25.

In response to a petition by White Cloud, Washington and Grant township voters asking a change in the boundary lines of the three townships, the county court has ordered an election to be held on the last Tuesday in March when the proposition will be submitted.

The court order giving the proposed changes that is proposed to be made in each township is as follows:

By adding to Grant township, all that part of White Cloud township, as now constituted, lying south of the line dividing Congressional Township 62 and Congressional Township 63, and by eliminating from said Grant township, as now constituted, all that part lying north of the line dividing Congressional Township 62 and Congressional Township 63, and by also eliminating from Grant Township, as now constituted, all that part of said township which lies south of the line dividing Congressional Township 62 and Congressional Township 63, and east of line drawn straight north from the southwest corner of the Southwest Quarter of the Southeast Quarter of Section 31, Township 62, of Range 34, and running north to the said line dividing Congressional Township 62 and Congressional [illegible]wnship 63, so that the said Grant Township with the changes in boundaries above mentioned, shall include all that part of Grant Township and White Cloud Township, as they are now constituted, lying south of the line dividing Congressional Township 62 and Congressional Township 63 except that part of Grant Township, as now constituted, lying south of the line dividing the Congressional Township 62 and Congressional Township 63 and east of a line drawn straight north from the southwest corner of the Southwest Quarter of the Southeast Quarter of Section 31, Township 62 and Range 34, and running north to the said line dividing Congressional Township 62 and Congressional Township 63.

By adding to Washington Township, all that part of Grant Township, as now constituted, whichc lies south of the line dividing Congressional Township 62 and Congressional Township 63 and east of a line drawn straight north from the southwest corner of the South west Quarter of the Southeast Quarter of Section 31, Township 62, of Range 34, Nodaway County, Missouri, and running north to said line dividing Congressional Township 62 and Congressional Township 63.

By adding to White Cloud Township all that part of Grant Township as now constituted, lying north of line dividing Congressional Township 62 and Congressional Township 63, and by eliminating therefrom, all that part of White Cloud Township, as now constituted, lying south of said line dividing Congressional Township 62 and Congressional Township 63, so that White Cloud Township with boundaries changed shall include all that part of White Cloud Township and Grant Township, as each are now constituted, lying north of line dividing Congressional Township 62 and Congressional Township 63.

WINNERS IN TRAIL CONTEST

Harold and Eldon Green First in Scout Event Saturday—Give Annual Vaudeville Show in March.

About forty Boy Scouts participated in the trailing contests Saturday afternoon when a route including some twenty blocks was gone over and certain points located from printed directions given and question asked. The winners were Harold Green of Troop 2 and Eldon Green of Troop 1. The boys are brothers and are sons of Mr. and Mrs. Frank Green. Harold Green scored 380 points out of a possible 390 while his brother, Eldon, scored 370 points. Leonard Carsten of Troop 1 and Jerry Gile of Troop 2, won second places. The boys took to the trail like ducks to water and declared it better than any game they knew. It required about two hours to complete the trail. A trailing contest for second class Scouts is announced for the near future.

The Scouts have decided to present their annual vaudeville show this year in the early part of March and plans are already under way to make it even better than the one given last year. A lot of new features and new stunts will be introduced, many of which will be of a patriotic nature.

'BEHOLD THE DAWN'

A NEW DAY IS HERE FOR THE CHURCH SAYS WILLIAMS

MAKES TELLING POINTS

Noted Worker for Boys in Two Interesting Talks—Sterling Williams in Addresses.

John L. Alexander, American by Scottish design, and International Superintendent of Young People's Division of Sunday School Work, of Chicago, and Sterling L. Williams, Missouri's Superintendent of Young People's Work of the International Sunday School Association, were in Maryville yesterday and made four talks.

Williams appealed to the church members to behold the dawn of the New Day with its stage all set waiting for them to seize upon the opportunity to usher the New Day in. He pointed out in a clear, forceful manner that never before has the church of Jesus Christ had such an opportunity to spread His message to all mankind. He pointed out three lessons which the Doughboy has taught us—Loyalty, without which the church would become as nothing; Service, because we love Christ and are loyal to Him, we will serve Him; Preparation, without a knowledge of Jesus Christ and His way of doing things we go about our work as one groping in the darkness.

Wiallims brought the attention of his audience to the new trend in the commercial world to the land of South America. He said he was filled with a great deal of apprehension from that quarter, and was wondering if the the church of Jesus Christ would rise to the situation and as the arm of trade reached out would the church folk send the gospel of Christ and fair dealing to those peoples too.

He pleaded for a recognition of the younger boys and girls in the Sunday school and church life. It is Williams' purpose, backed by the Christian folk of this state to make Missouri as famous for her Sunday schools as she is famous for her mules.

Those who missed Alexander's talk yesterday afternoon at the First M. E. Church, missed a wonderfully instructive lesson on the boy Jesus and how he lived as a boy and grew to manhood. Alexander said that it was funny just what kind of ideas we had about these boys and girls about us. "You know to see life through the eyes of a boy really makes life worth while to me," he said. The point was brought out in a very clear way that the boy Jesus was a well balanced boy mentally, physically, socially and religiously, and accounts for the three days' search for Jesus by his parents when they discovered his absence after a day's journey homeward from Jerusalem. Alexander said that when he visits Jerusalem he is not going to spend much time in seeing the common historical sights that travelers visit but he is going to look the city over to see just what attractions that city would have for a boy like Jesus, that made him so hard to find. So full and rounded was His life that it was impossible for His parents to tell just what interested Him most.

Alexander pointed out that Zechariah was the only man who every saw the Modern City and he lived about 800 years before Christ and he tells vivdly of that city in the eighth chapter of Zechariah. The audience's attention was brought to the fact that the Bible was a history of cities—it's opening chapters describe a city and likewise it's closing chapters and all through the Library of Books, stories centering around cities have been written. He pointed out that Madame Matimozzri's method of teaching, which is by play was patterened upon Zechariah's story of the city. He showed that in the early days the social life of a community centered in the church, and that the commons was the children's playground. But now that has all been crowded out by commercialized amusements under the watchful eye of church elders and deacons and now they are wondering what is the matter with the church!

"The citizen of tomorrow will be what the child play-life is today," says Mr. Alexander, and clearly proved his point. He used several illustrations of children playing school, church, store and the like, comparing their actions to a corresponding period in manhood and womanhood.

Mr. Alexander and Mr. Williams are in Savannah today and tomorrow holding a Sunday school teachers' institute

What the Boys Want.

Let us make a suggestion about the soldier memorial proposition. We get the idea from talking with soldier boys. What the boys all want, in every town, is a gymnasium. As to this, there is no doubt. Ask them, and you will find out for yourself. As the boys come back from camp and field and settle down into civil life, they feel the need of athletics. And there is no finer, cleaner or more wholesome form of recreation. Nor is a gymnasium so expensive as one might suppose. The principal thing is a large, light, airy, well-ventilated room and shower baths Ask the boys. They will tell you that a gymnasium is the thing they want. It is the thing that young men need.—Mosby's Missouri Message.

Switzerland elects a president every year. The president's chief duty is to direct his country's' foreign policy, for most of the internal administration is in the hands of the cantons or districts.

Italy has many poor people, but they are noted for their general good health This is to some extent attributed to the fact that the working people of Italy eat less meat than those of any other European nation.

PRESIDENT IS BACK

NOT WORRIED OVER CRITICISM OF LEAGUE PLANS

A GREAT DEMONSTRATION

Greatest Throng Ever Assembled in Boston Pays Tribute—A Public Address This Afternoon.

Boston, Feb. 24.—New England acclaimed President Wilson on behalf of the nation today upon his return from Europe after an absence of more than eighty days. The demonstration in his honor and the tribute to the ideals which he established in Europe began before the gray mistes lifted from the harbor and increased in volume and intensity as he was welcomed to the heart of the city by the greatest throng that ever assembled here. There was only one jarring not that tended to mar the eventful occasion. It was the arrest of twenty-five suffragettes who lined up with banners before the official reviewing stand and refused to move when directed. One woman fought and kicked the police.

"It is a pleasure to see that these men have been given seats of honor," said the President after he had passed the reviewing stand where invalid soldiers were seated.

A close view of the President's face shows lines, the deep result of his weeks of arduous and strenous labors at the peace conference. The sea trip has given color to his cheeks, however, and when he smiled acknowledgment of the soul-stirring acclaim he didn't seem to be any the worse for the trip.

Boston, Feb. 24.—President Wilson returned to the United States today. The President came back to make a preliminary report of his stewardship as chief the American peace commission and to wind up the affairs of the expiring congress. He plans to return to France in about eight days to complete his work there. Before leaving he hopes to acquaint congress with all that has transpired since he left.

The President came home in fine fettle and by no means seriously concerned over the storm of criticism which has followed making public the initial draft of proposed legislation from the League of Nations. A thundering salute of twenty-one guns from all the harbor forts opened a new note on England's welcome to the President. Enthusiastic crowds lined the harbors to welcome the party and the town was bedecked with flags and bunting. The President expects to make a short extemporaneous speech at four o'clock this afternoon before leaving for Washington.

Red Cross Notes

"All peoples will go to the adventure of Peace with something of big purpose and spirit in their heart, with something of free outlook. To do our jobs really well and to be brotherly! To seek health and to ensure beauty! If we can put that simple faith into real and thorough practice, what may not this century yet bring forth?"

No more welcome news has come across the sea in many weeks than that the way finally has been opened for the extension of the American Red Cross aid to a country so desperately in need of it as Poland. Admittedly the work in hand involves one of the greatest services to mankind the organization has been called upon to undertake, and it will require the most earnest suport of the rank and file of the Red Cross at home to render it of full value. It goes without saying that such support will follow.

Home-coming American soldiers drank 15,000 cups of coffee on the opening day of a new canteen in England. No wonder they're wide-awake.

National Organization for Public Health Nursing.

The proclamation of February 23d as "Health Sunday" by the U. S. Public Health Service, gives notice that an extended and intensive health campaign is to be waked throughout the country.

Draft figures, with their 30 per cent of unfit, showed the necessity for a determined effort to raise the health standard of the country. The results obtained in the army, navy, and the cantonment zones through the efforts of the Surgeons General of the Army, Navy and the Public Health Service proved that the health of our citizens can be improved and communicable disease controlled.

One triumph of the Public Health Service in and around the camps was the lowering of the rate of venereal disease, one of the greatest menaces to our national vitality. In its appeal for the continuation of this active campaign, it is noteworthy that the U. S. Public Health Service, through a statement of Surgeon General Blue, places particular emphasis on the work of the Public Health Nurse and the importance of increasing her number through out the nation.

The statement of Surgeon General is:

"For the first time in its history the United States Public Health Service, during the recent war, organized a division of public health nursing. The work which these nurses performed was of inestimable value. It is not too much to say that without their aid our success in keeping down sickness in the extra cantonment zones and in making the venereal disease rate rate in our army lower than that of any other army in modern times could not have been achieved.

"In continuing our general campaign for health, and this special fight against venereal disease, we depend upon the continued assistance of public health nurses.

"Behind these public health nurses we hope to have the sympathetic understanding and support of all the women of the country. We believe that we will have this when it is realized fully what the nurse accomplishes for her community.

"We depend upon the women of the nation not only for understanding and support but we depend upon them to encourage young women to take up the profession of the public health nurse and to insist that hospitals provide training for nurses in public health service, including work in venereal diseases.

"In backing the public health nurse, the women of the nation will be backing one of the most vital agents in the struggle against the diesase which threatens the health and prosperity of all of us, and the very life of our children, which is the life of our nation."

Mrs. G. W. Fuller as state representative of the national organization for public health nursing announces the determination of that organization to co-operate in all possible ways with the U. S. Public Health Service and to put forth every effort to increase the number of public health nurses.

An effort is about to be made in co-operation with the national league of nursing education to bring about a modification of curricula in hospital training schools to include preparation for public health nursing. The organization is also advocating many more postgraduate courses and is securing provision of a scholarship fund to enable graduate nurses to take these courses. Special emphasis is being placed on the need of teachers and executives.

"Old Clothing Wanted."

St. Louis, Mo., Feb. 21, 1919.—To the Nodaway County Chapter: The clothing problem is one of the most serious faced by peoples liberated by the war. At the present time the American Red Cross is shipping one million garments to the destitute refugees monthly. To meet this need the American Red Cross will conduct a mammoth collection of used clothing, shoes, and blankets throughout the United States during March. The American Red Cross representatives abroad and Herbert Hoover, head of the European Relief Administration, have cabled that an immediate supply of every kind of clothing is absolutely vital to the health and life of millions of men, women and children.

Clothing must be supplied to the suffering peoples in Northern France, Belgium, Italy, Roumania, Serbia, Greece, Montenegro, Palestine, Albania, Czecho- Slovakia and Poland. To meet this need the millions of members of the Red Cross will be asked to assist by a donation of old clothing that will prove veritable Godsend to those who have borne the brunt of war. The collection will be made at a time when practically the whole country is discarding winter clothing much of which would never again be donned by owners. Thus at a minimum sacrifice, the American people will be able to show their brotherhood to those who suffer.

At least ten thousand tons of clothing are needed. The drive to obtain this will be conducted by Red Cross Chapters throughout the country. An important feature of the present collection is the fact that the clothing will be forwarded to Europe where it will be sorted and repaired by the people for whose benefit it has been collected, thus giving to the women of those countries employment as well as the needed clothing. Within a short time full instructions for conducting the campaign will be sent to Chapters.

Ask your Chapter Chairman of Publicity to place this in your local papers.

Yours very truly,

ALFRED FAIRBANKS,

Acting Manager, Southwest Division, American Red Cross.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

DAILY HEALTH TALKS

The Troubles Women Have

BY L. MAC LEAN, M. D.

Probably no man in America was ever better qualified to successfully treat the diseases peculiar to women than Dr. Pierce, of Buffalo, N. Y. The cases that come to him run into many thousands, giving him an experience that rarely comes to any one man. Dr. Pierce found that in nearly every case there were certain vegetable growths which rarely failed to give prompt relief in those feminine disorders from which so many women suffer. He combined these roots and herbs into a temperance medicine that he called Dr. Pierce's Favorite Prescription, for that is precisely what it was. This medicine is sold in both liquid and tablet form by druggists everywhere. Favorite Prescription is a distinct remedy for women and acts directly upon the organs that characterize the sex. It is not necessary to take a long course of treatment with this standard medicine. A weakly, sickly, backachy, headachy, nervous, despondent woman, with regular or irregular pains—with feminine disorders that come in youth or middle age—is pretty sure to find in Dr. Pierce's Favorite Prescription the exact remedy that her condition calls for, and to find it after a very few doses are taken. Why women should allow themselves to stay sick when a very little money spent for this remedy will probably make them well, is something no one can explain.

All women who suffer from feminine disorders are invited to write the Faculty of the Invalids' Hotel, Buffalo, N. Y., for free confidential consultation and advice, no charge being made for this high professional service. This will enable every woman to benefit by the advice of the distinguished corps of physicians which Dr. Pierce has gathered about him in his celebrated Buffalo institution.

When constipation is present with feminine disorders, Dr. Pierce's Pleasant Pellets should be taken along with Favorite Prescription. Try them now!

HER TROUBLES HAD COST THOUSANDS

Mrs. White Says Tanlac Overcame Troubles After Everything Else Failed—Suffered Fifteen Years.

"Actually, a few bottles of Tanlac did more for me than medicines and treatments that have cost me thousands of dollars," said Mrs. Kittie White, who lives at 1312 Forty-second street, East, Seattle, Wash.

"Fifteen years ago," she continued, "I was a strong and healthy woman weighing a hundred and seventy pounds. I contracted asthma, which got so bad that many a time I have had to sit up night after night hardly able to get my breath and suffering terribly. My stomach went back on me, my food would sour and the gas that rose up in my throat would almost strangle me and I would be in so much misery that I would go almost distracted. My head ached like it would split and my back hurt like it was going to break in two. I lost over forty pounds and was so weak and felt so worn out that I was barely able to get around.

"One of my friends told me about Tanlac, so I got me a bottle. My appetite is so great now that I feel ashamed to eat enough to satisfy myself, and my stomach is in fine condition. I haven't suffered a particle from asthma since I have been taking Tanlac. I felt so fine on finishing my first bottle that I just couldn't get another one quick enough. I never know what a headache is, those awful pains in my back are all gone, I have already gained several pounds and am gaining in weight and strength every day. I can do any amount of hard work without getting tired, and can't remember the time when I felt as fine as I do today."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction.—H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store.—Adv.

QUITMAN PUPILS GIVE PROGRAM

Celebrate Washington's Birthday With Exercises and Tea.

The pupils of the Quitman school gave an excellent Washington Birthday program at the school on Friday. There were songs and recitations by the Intermediate department pupils and the Primary children gave a drill in costume.

The pupils who impersonated the characters of George and Martha Washington, and Betsey Ross and the darkey ushers were exceptionally good. Tea and cakes were served after the program. A large crowd of the patrons and friends of the schools were present. The children have been doing excellent work this year under the tutelage of Prof. William Lewis, high school, Miss Cleo Herndon, Intermediate and Miss Ethel Gillinger, Primary.

FOR BURNING ECZEMA

Apply Zemo the Clean, Antiseptic Liquid—Easy to Use—Does Not Stain

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

Miss Blair to Fairfax.

Miss Sadie Blair left this morning for Fairfax where she is employed in the millinery business. Miss Blair has been visiting her mother, Mrs. Sarah Wilson.

Great Britain has negotiated for 1,000,000,000 square feet of Canadian lumber of all grades valued at approximately $40,000,000. It is understood this will be allocated among the several timber provinces.

Attention—Farmers

This is a splendid chance for farmers to take stock on their harvesting and haying machines, or any others they will use during the year. Look each one over and note carefully any part that may need replacement. A little later you will be pressed for time and then a thorough examination will be almost impossible.

The repair problem can be much simplified by this method. While we have always tried to meet promptly every call of this kind, realizing how valuable your time is, having this advance information will aid us very much in making our service complete.

A list of your possible requirements will enable us to check up our stock of repairs to see that not a single part you might need is missing.

We want to cut to a minimum the time between the need of a repair part and its supply. This you can help us do by giving us this list **before or during Repair and Inspection Week, March 3-8.**

The women have also served dinner at the Albert Hall and Chance Copeland sales, clearing $25 for the Red Cross, and received an additional gift or $5 from Mr. and Mrs. Chance Copeland, who are leaving soon on a western visit.

WOMEN EVERYWHERE

Praise Lydia E. Pinkham's Vegetable Compound as the Greatest Remedy for Woman's Ills.

New Haven, Conn.—"For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased." —Mrs. CHARLES E. MORGAN, 37 Sea Street, New Haven, Conn.

The reason Lydia E. Pinkham's Vegetable Compound is so successful is because it contains the curative, strengthening properties of good old fashioned roots and herbs, which act directly on the female organism.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years' experience is at your service.

AN IMPORTANT FACTOR IN CUTTING SHOE EXPENSE

"Many months of comfort at little expense" is the way Charles A. Pearson of San Diego, California, sums up his experience with Neolin Soles. Mr. Pearson had two pairs of shoes resoled with Neolin Soles, and after wearing them for twenty months writes "I will have to get new shoes sometime, but so far as the soles are concerned, that time seems as far distant as when they were new."

This is typical of the experience millions are having with Neolin Soles. Created by Science to be durable, flexible and waterproof, these soles are an important factor in cutting shoe expense. You can get them on new shoes for the whole family, and for re-soling. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

How Long Must I Suffer From the Pangs of Rheumatism?

Is there no real relief in sight?

Doubtless like other sufferers, you have often asked yourself this question, which continues to remain unanswered.

Science has proven that your Rheumatism is caused by a germ in your blood, and the only way to reach it is by a remedy which eliminates and removes these little pain demons from your blood. This explains why liniments and lotions can do no permanent good, for they cannot possibly reach these germs which infest your blood by the millions.

S. S. S. has been successfully used for Rheumatism for more than fifty years. Try it to-day, and you will find yourself at last on the right track to get rid of your Rheumatism. You can get valuable advice about the treatment of your individual case by writing to the Chief Medical Adviser, Swift Specific Co., Dept. D, Atlanta, Ga.

WINNERS IN TRAIL CONTEST

Harold and Eldon Green First in Scout Event Saturday—Give Annual Vaudeville Show in March.

About forty Boy Scouts participated in the trailing contests Saturday afternoon when a route including some twenty blocks was gone over and certain points located from printed directions given and question asked. The winners were Harold Green of Troop 2 and Eldon Green of Troop 1. The boys are brothers and are sons of Mr. and Mrs. Frank Green. Harold Green scored 380 points out of a possible 390 while his brother, Eldon, scored 370 points. Leonard Carsten of Troop 1 and Jerry Gile of Troop 2, won second places. The boys took to the trail like ducks to water and declared it better than any game they knew. It required about two hours to complete the trail. A trailing contest for second class Scouts is announced for the near future.

The Scouts have decided to present their annual vaudeville show this year in the early part of March and plans are already under way to make it even better than the one given last year. A lot of new features and new stunts will be introduced, many of which will be of a patriotic nature.

'BEHOLD THE DAWN'

A NEW DAY IS HERE FOR THE CHURCH SAYS WILLIAMS

MAKES TELLING POINTS

Noted Worker for Boys in Two Interesting Talks—Sterling Williams in Addresses.

John L. Alexander, American by Scottish design, and International Superintendent of Young People's Division of Sunday School Work, of Chicago, and Sterling L. Williams, Missouri's Superintendent of Young People's Work of the International Sunday School Association, were in Maryville yesterday and made four talks.

Williams appealed to the church members to behold the dawn of the New Day with its stage all set waiting for them to seize upon the opportunity to usher the New Day in. He pointed out in a clear, forceful manner that never before has the church of Jesus Christ had such an opportunity to spread His message to all mankind. He pointed out three lessons which the Doughboy has taught us—Loyalty, without which the church would become as nothing; Service, because we love Christ and are loyal to Him, we will serve Him; Preparation, without a knowledge of Jesus Christ and His way of doing things we go about our work as one groping in the darkness.

Wiallims brought the attention of his audience to the new trend in the commercial world to the land of South America. He said he was filled with a great deal of apprehension from that quarter, and was wondering if the the church of Jesus Christ would rise to the situation and as the arm of trade reached out would the church folk send the gospel of Christ and fair dealing to those peoples too.

He pleaded for a recognition of the younger boys and girls in the Sunday school and church life. It is Williams' purpose, backed by the Christian folk of this state to make Missouri as famous for her Sunday schools as she is famous for her mules.

Those who missed Alexander's talk yesterday afternoon at the First M. E. Church, missed a wonderfully instructive lesson on the boy Jesus and how he lived as a boy and grew to manhood. Alexander said that it was funny just what kind of ideas we had about these boys and girls about us. "You know to see life through the eyes of a boy really makes life worth while to me," he said. The point was brought out in a very clear way that the boy Jesus was a well balanced boy mentally, physically, socially and religiously, and accounts for the three days' search for Jesus by his parents when they discovered his absence after a day's journey homeward from Jerusalem. Alexander said that when he visits Jerusalem he is not going to spend much time in seeing the common historical sights that travelers visit but he is going to look the city over to see just what attractions that city would have for a boy like Jesus, that made him so hard to find. So full and rounded was His life that it was impossible for His parents to tell just what interested Him most.

Alexander pointed out that Zechariah was the only man who every saw the Modern City and he lived about 800 years before Christ and he tells vivdly of that city in the eighth chapter of Zechariah. The audience's attention was brought to the fact that the Bible was a history of cities—it's opening chapters describe a city and likewise it's closing chapters and all through the Library of Books, stories centering around cities have been written. He pointed out that Madame Mati mozzri's method of teaching, which is by play was patterened upon Zechariah's story of the city. He showed that in the early days the social life of a community centered in the church, and that the commons was the children's playground. But now that has all been crowded out by commercialized amusements under the watchful eye of church elders and deacons and now they are wondering what is the matter with the church!

"The citizen of tomorrow will be what the child play-life is today," says Mr. Alexander, and clearly proved his point. He used several illustrations of children playing school, church, store and the like, comparing their actions to a corresponding period in manhood and womanhood.

Mr. Alexander and Mr. Williams are in Savannah today and tomorrow holding a Sunday school teachers' institute.

What the Boys Want.

Let us make a suggestion about the soldier memorial proposition. We get the idea from talking with soldier boys. What the boys all want, in every town, is a gymnasium. As to this, there is no doubt. Ask them, and you will find out for yourself. As the boys come back from camp and field and settle down into civil life, they feel the need of athletics. And there is no finer, cleaner or more wholesome form of recreation. Nor is a gymnasium so expensive as one might suppose. The principal thing is a large, light, airy, well-ventilated room and shower baths Ask the boys. They will tell you that a gymnasium is the thing they want. It is the thing that young men need.—Mosby's Missouri Message.

Switzerland elects a president every year. The president's chief duty is to direct his country's' foreign policy, for most of the internal administration is in the hands of the cantons or districts.

Italy has many poor people, but they are noted for their general good health This is to some extent attributed to the fact that the working people of Italy eat less meat than those of any other European nation.

A GREAT DEMONSTRATION

Greatest Throng Ever Assembled in Boston Pays Tribute—A Public Address This Afternoon.

Boston, Feb. 24.—New England acclaimed President Wilson on behalf of the nation today upon his return from Europe after an absence of more than eighty days. The demonstration in his honor and the tribute to the ideals which he established in Europe began before the gray mistes lifted from the harbor and increased in volume and intensity as he was welcomed to the heart of the city by the greatest throng that ever assembled here. There was only one jarring not that tended to mar the eventful occasion. It was the arrest of twenty-five suffragettes who lined up with banners before the official reviewing stand and refused to move when directed. One woman fought and kicked the police.

"It is a pleasure to see that these men have been given seats of honor," said the President after he had passed the reviewing stand where invalid soldiers were seated.

A close view of the President's face shows lines, the deep result of his weeks of arduous and strenous labors at the peace conference. The sea trip has given color to his cheeks, however, and when he smiled acknowledgment of the soul-stirring acclaim he didn't seem to be any the worse for the trip.

Boston, Feb. 24.—President Wilson returned to the United States today. The President came back to make a preliminary report of his stewardship as chief the American peace commission and to wind up the affairs of the expiring congress. He plans to return to France in about eight days to complete his work there. Before leaving he hopes to acquaint congress with all that has transpired since he left.

The President came home in fine fettle and by no means seriously concerned over the storm of criticism which has followed making public the initial draft of proposed legislation from the League of Nations. A thundering salute of twenty-one guns from all the harbor forts opened a new note on England's welcome to the President. Enthusiastic crowds lined the harbors to welcome the party and the town was bedecked with flags and bunting. The President expects to make a short extemporaneous speech at four o'clock this afternoon before leaving for Washington.

DIES WITH MENINGITIS

Frances Potts, Second of Family to Die, Passes Away This Morning.

Frances Potts, the fourteen year-old daughter of Mr. and Mrs. William Potts of Guilford, died this morning. Frances is the second child of the family to die with spinal meningitis. Norris, eighteen years old died about two weeks ago. Three other little girls of the family are ill with the same trouble, but all are now improving and considered out of danger.

No arrangements have yet been made for the funeral.

ORIENTAL RULER ASSASSINATED.

London, Feb. 24.—The Amur of Afghanistan has been assassinated according to news received from Kabul today. The information said the ruler was shot dead at a camp, but details were lacking. Afghanistan is an inland country of considerable size in Southern Asia adjoining India, Persia and Russia.

Red Cross Notes

"All peoples will go to the adventure of Peace with something of big purpose and spirit in their heart, with something of free outlook. To do our jobs really well and to be brotherly! To seek health and to ensure beauty! If we can put that simple faith into real and thorough practice, what may not this century yet bring forth?"

No more welcome news has come across the sea in many weeks than that the way finally has been opened for the extension of the American Red Cross aid to a country so desperately in need of it as Poland. Admittedly the work in hand involves one of the greatest services to mankind the organization has been called upon to undertake, and it will require the most earnest suport of the rank and file of the Red Cross at home to render it of full value. It goes without saying that such support will follow.

Home-coming American soldiers drank 15,000 cups of coffee on the opening day of a new canteen in England. No wonder they're wide-awake.

National Organization for Public Health Nursing.

The proclamation of February 23d as "Health Sunday" by the U. S. Public Health Service, gives notice that an extended and intensive health campaign is to be waked throughout the country.

Draft figures, with their 30 per cent of unfit, showed the necessity for a determined effort to raise the health standard of the country. The results obtained in the army, navy, and the cantonment zones through the efforts of the Surgeons General of the Army, Navy and the Public Health Service proved that the health of our citizens can be improved and communicable disease controlled.

One triumph of the Public Health Service in and around the camps was the lowering of the rate of venereal disease, one of the greatest menaces to our national vitality. In its appeal for the continuation of this active campaign, it is noteworthy that the U. S. Public Health Service, through a statement of Surgeon General Blue, places particular emphasis on the work of the Public Health Nurse and the importance of increasing her number through out the nation.

The statement of Surgeon General is:

"For the first time in its history the United States Public Health Service, during the recent war, organized a division of public health nursing. The work which these nurses performed was of inestimable value. It is not too much to say that without their aid our success in keeping down sickness in the extra cantonment zones and in making the venereal disease rate rate in our army lower than that of any other army in modern times could not have been achieved.

"In continuing our general campaign for health, and this special fight against venereal disease, we depend upon the continued assistance of public health nurses.

"Behind these public health nurses we hope to have the sympathetic understanding and support of all the women of the country. We believe that we will have this when it is realized fully what the nurse accomplishes for her community.

"We depend upon the women of the nation not only for understanding and support but we depend upon them to encourage young women to take up the profession of the public health nurse and to insist that hospitals provide training for nurses in public health service, including work in venereal diseases.

"In backing the public health nurse, the women of the nation will be backing one of the most vital agents in the struggle against the diesase which threatens the health and prosperity of all of us, and the very life of our children, which is the life of our nation."

Mrs. G. W. Fuller as state representative of the national organization for public health nursing announces the determination of that organization to co-operate in all possible ways with the U. S. Public Health Service and to put forth every effort to increase the number of public health nurses.

An effort is about to be made in co-operation with the national league of nursing education to bring about a modification of curricula in hospital training schools to include preparation for public health nursing. The organization is also advocating many more postgraduate courses and is securing provision of a scholarship fund to enable graduate nurses to take these courses. Special emphasis is being placed on the need of teachers and executives.

"Old Clothing Wanted."

St. Louis, Mo., Feb. 21, 1919.—To the Nodaway County Chapter: The clothing problem is one of the most serious faced by peoples liberated by the war. At the present time the American Red Cross is shipping one million garments to the destitute refugees monthly. To meet this need the American Red Cross will conduct a mammoth collection of used clothing, shoes, and blankets throughout the United States during March. The American Red Cross representatives abroad and Herbert Hoover, head of the European Relief Administration, have cabled that an immediate supply of every kind of clothing is absolutely vital to the health and life of millions of men, women and children.

Clothing must be supplied to the suffering peoples in Northern France, Belgium, Italy, Roumania, Serbia, Greece, Montenegro, Palestine, Albania, Czecho- Slovakia and Poland. To meet this need the millions of members of the Red Cross will be asked to assist by a donation of old clothing that will prove veritable Godsend to those who have borne the brunt of war. The collection will be made at a time when practically the whole country is discarding winter clothing much of which would never again be donned by owners. Thus at a minimum sacrifice, the American people will be able to show their brotherhood to those who suffer.

At least ten thousand tons of clothing are needed. The drive to obtain this will be conducted by Red Cross Chapters throughout the country. An important feature of the present collection is the fact that the clothing will be forwarded to Europe where it will be sorted and repaired by the people for whose benefit it has been collected, thus giving to the women of those countries employment as well as the needed clothing. Within a short time full instructions for conducting the campaign will be sent to Chapters.

Ask your Chapter Chairman of Publicity to place this in your local papers.

Yours very truly,

ALFRED FAIRBANKS,
Acting Manager, Southwest Division,
American Red Cross.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

DAILY HEALTH TALKS

The Troubles Women Have

BY L. MAC LEAN, M. D.

Probably no man in America was ever better qualified to successfully treat the diseases peculiar to women than Dr. Pierce, of Buffalo, N. Y. The cases that come to him run into many thousands, giving him an experience that rarely comes to any one man. Dr. Pierce found that in nearly every case there were certain vegetable growths which rarely failed to give prompt relief in those feminine disorders from which so many women suffer. He combined these roots and herbs into a temperance medicine that he called Dr. Pierce's Favorite Prescription, for that is precisely what it was. This medicine is sold in both liquid and tablet form by druggists everywhere. Favorite Prescription is a distinct remedy for women and acts directly upon the organs that characterize the sex. It is not necessary to take a long course of treatment with this standard medicine. A weakly, sickly, backachy, headachy, nervous, despondent woman, with regular or irregular pains—with feminine disorders that come in youth or middle age—is pretty sure to find in Dr. Pierce's Favorite Prescription the exact remedy that her condition calls for, and to find it after a very few doses are taken. Why women should allow themselves to stay sick when a very little money spent for this remedy will probably make them well, is something no one can explain.

All women who suffer from feminine disorders are invited to write the Faculty of the Invalids' Hotel, Buffalo, N. Y., for free confidential consultation and advice, no charge being made for this high professional service. This will enable every woman to benefit by the advice of the distinguished corps of physicians which Dr. Pierce has gathered about him in his celebrated Buffalo institution.

When constipation is present with feminine disorders, Dr. Pierce's Pleasant Pellets should be taken along with Favorite Prescription. Try them now!

HER TROUBLES HAD COST THOUSANDS

Mrs. White Says Tanlac Overcame Troubles After Everything Else Failed—Suffered Fifteen Years.

"Actually, a few bottles of Tanlac did more for me than medicines and treatments that have cost me thousands of dollars," said Mrs. Kittie White, who lives at 1312 Forty-second street, East, Seattle, Wash.

"Fifteen years ago," she continued, "I was a strong and healthy woman weighing a hundred and seventy pounds. I contracted asthma, which got so bad that many a time I have had to sit up night after night hardly able to get my breath and suffering terribly. My stomach went back on me, my food would sour and the gas that rose up in my throat would almost strangle me and I would be in so much misery that I would go almost distracted. My head ached like it would split and my back hurt like it was going to break in two. I lost over forty pounds and was so weak and felt so worn out that I was barely able to get around.

"One of my friends told me about Tanlac, so I got me a bottle. My appetite is so great now that I feel ashamed to eat enough to satisfy myself, and my stomach is in fine condition. I haven't suffered a particle from asthma since I have been taking Tanlac. I felt so fine on finishing my first bottle that I just couldn't get another one quick enough. I never know what a headache is, those awful pains in my back are all gone, I have already gained several pounds and am gaining in weight and strength every day. I can do any amount of hard work without getting tired, and can't remember the time when I felt as fine as I do today."

Tanlac is sold in Maryville by the Koch Pharmacy and by A. M. Colly, Conception Junction.—H. M. Lincoln, Pickering, and Carter Pharmacy, Burlington Junction, Mo., and in Barnard by Bear Drug Store.—Adv.

QUITMAN PUPILS GIVE PROGRAM

Celebrate Washington's Birthday With Exercises and Tea.

The pupils of the Quitman school gave an excellent Washington Birthday program at the school on Friday. There were songs and recitations by the Intermediate department pupils and the Primary children gave a drill in costume.

The pupils who impersonated the characters of George and Martha Washington, and Betsey Ross and the darkey ushers were exceptionally good. Tea and cakes were served after the program. A large crowd of the patrons and friends of the schools were present. The children have been doing excellent work this year under the tutelage of Prof. William Lewis, high school, Miss Cleo Herndon, Intermediate and Miss Ethel Gillinger, Primary.

Miss Blair to Fairfax.

Miss Sadie Blair left this morning for Fairfax where she is employed in the millinery business. Miss Blair has been visiting her mother, Mrs. Sarah Wilson.

Great Britain has negotiated for 1,000,000,000 square feet of Canadian lumber of all grades valued at approximately $40,000,000. It is understood this will be allocated among the several timber provinces.

Attention—Farmers

This is a splendid chance for farmers to take stock on their harvesting and haying machines, or any others they will use during the year. Look each one over and note carefully any part that may need replacement. A little later you will be pressed for time and then a thorough examination will be almost impossible.

The repair problem can be much simplified by this method. While we have always tried to meet promptly every call of this kind, realizing how valuable your time is, having this advance information will aid us very much in making our service complete.

A list of your possible requirements will enable us to check up our stock of repairs to see that not a single part you might need is missing.

We want to cut to a minimum the time between the need of a repair part and its supply. This you can help us do by giving us this list **before or during Repair and Inspection Week, March 3-8.**

WOMEN EVERYWHERE

Praise Lydia E. Pinkham's Vegetable Compound as the Greatest Remedy for Woman's Ills.

New Haven, Conn.—"For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased."—Mrs. CHARLES E. MORGAN, 37 Sea Street, New Haven, Conn.

The reason Lydia E. Pinkham's Vegetable Compound is so successful is because it contains the curative, strengthening properties of good old fashioned roots and herbs, which act directly on the female organism.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years' experience is at your service.

AN IMPORTANT FACTOR IN CUTTING SHOE EXPENSE

"Many months of comfort at little expense" is the way Charles A. Pearson of San Diego, California, sums up his experience with Neōlin Soles. Mr. Pearson had two pairs of shoes resoled with Neōlin Soles, and after wearing them for twenty months writes "I will have to get new shoes sometime, but so far as the soles are concerned, that time seems as far distant as when they were new."

This is typical of the experience millions are having with Neōlin Soles. Created by Science to be durable, flexible and waterproof, these soles are an important factor in cutting shoe expense. You can get them on new shoes for the whole family, and for re-soling. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

How Long Must I Suffer From the Pangs of Rheumatism?

Is there no real relief in sight?

Doubtless like other sufferers, you have often asked yourself this question, which continues to remain unanswered.

Science has proven that your Rheumatism is caused by a germ in your blood, and the only way to reach it is by a remedy which eliminates and removes these little pain demons from your blood. This explains why liniments and lotions can do no permanent good, for they cannot possibly reach these germs which infest your blood by the millions.

S. S. S. has been successfully used for Rheumatism for more than fifty years. Try it to-day, and you will find yourself at last on the right track to get rid of your Rheumatism. You can get valuable advice about the treatment of your individual case by writing to the Chief Medical Adviser, Swift Specific Co., Dept. D, Atlanta, Ga.

Complete Satisfaction Cannot Be Bought for Less

To pay less is to risk the loss of efficiency, comfort, modernized improvements, beauty of design or long-lived service.

The absence of any one of these essentials robs you of maximum value, usefulness and satisfaction.

At a low first cost and for economical maintenance, this Model 90 gives power—prodigious power—from its perfected, frugal-with-fuel motor.

It is simple to handle, has narrow turning radius, and easily operating clutch.

It is comfortable with spacious interior, wide seats, deep upholstery, rear cantilever springs, 106 inch wheelbase, large tires, non-skid rear, and Auto-Lite starting and lighting.

Successful men do not waste their time and energy in getting around—thousands use this Model 90 and save their vitality for the doing of more things in less time.
